

Atom medical limited is a privately owned company that operates in Lebanon and the United Kingdom. We import medical consumables and healthcare technology to our customers. Within the supply of the products there are relationships with external businesses.

Modern slavery is a crime and a violation of fundamental human rights. It takes various forms, such as slavery, servitude, forced and compulsory labor and human trafficking, all of which have in common the deprivation of a person's liberty by another in order to exploit them for personal or commercial gain.

Atom medical Ltd acknowledges its responsibility to the Modern Day Slavery Act 2015 and will ensure transparency within the organization and with suppliers of the goods and services to the organization.

Imported products from sources from outside the UK and EU are potentially more at risk to slavery / human trafficking issues. We have a zero-tolerance approach to modern slavery and are committed to acting ethically and with integrity in all our business dealings and relationships and to implementing and enforcing effective systems and controls to ensure modern slavery is not taking place anywhere in our own business or in any of our supply chains.

The Group has contacted all suppliers to set out our zero tolerance stance on modern slavery and to ensure that slavery and/or human trafficking is not taking place. And that any breach of this policy will terminate our relationship with any businesses knowingly involved in it.

The Company Directors and Senior Management shall take the responsibility for implementing the policy statement and its objectives, and shall provide adequate training to ensure that slavery and human trafficking is not taking place within its supply chain.

The policy statement will be reviewed annually and published.
